

IRON GATE

Veliko Gradište-Golubac-Donji
Milanovac-Kladovo - 3 days

DAY 1:

Veliko Gradište

Nimnik Monastery

The monastery exists before the Battle of Kosovo (1389). It was built in the oak forest near the village of Kurjača, 15 km from Veliko Gradište. The monastery has markings of many different periods, even stone ornaments from the ancient Roman military camp Viminacium.

Visit old city centre - main street with beautiful houses built at the end of 19th century, decorated with facade ornaments. The old city centre was proclaimed a spatial cultural-historic complex and is under the state protection. Visit to the Customs building, located on the bank of the Danube, not far from the old city centre. The building is decorated with a lively facade, accented by pilasters and capitals. The building is also under state protection.

Srebrno jezero (Silver lake), a developed tourist-sports complex offering a wide range of possibilities for recreation and entertainment on shore and in the water.

DAY 2

Golubac-Golubac town

Golubac fortress. It is dated from the Middle Ages, of exquisite beauty, overlooking the Danube from the rocks above. After the renovation, the Tourist Complex was opened in 2019. Fortress has a Palace and 9 towers, interconnected by ramparts.

Donji Milanovac

Captain Miša's Konak (residence) and the Tenka House. Reconstructed authentic houses from 19th century. Majdanpek Tourist Organization has its offices in the Tenka House.

Church of St Nicolas

First time it was mentioned in the annals of 1730 and it is characteristic for being in possession of a Jerusalem cross.

Archeological site Lepenski vir

This is a prehistoric archaeological site of exceptional importance, where human activity from 8,500 years ago is presented. Ethno-houses with authentic appliances are also located inside the archaeological site.

The Iron gate (Đerdap gorge) and National park Đerdap

The road to Kladovo runs by the Danube, through the beautiful Đerdap gorge. Ideal for photographing, the gorge is situated in the centre of the National park. The Visitor Centre within the park is a part of the itinerary.

IRON GATE

Hydro-electric power plant Đerdap – a spectacular river dam built in the recent times, with hydro-aggregates with the power of 1068 megawatts. This is the heart of the energy of this region and of Serbia in general.

DAY 3:

Kladovo

Diana Fortress – defensive fortress of Roman Emperor Trajan, built in the time of his march into Dacia.

Fetislam Fortress – which in the times of Turkish occupation was an artillery base (Mali grad).

Boat tour – the Danube trail, offering the close view on Trajan's memorial plaque (Tabula Traiana), Trajan's bridge and ait Kale.
